## THE STATE OF SOUTH CAROLINA

Annual District Report Card	<b>2001</b>
-----------------------------	-------------

### DISTRICT SUPERINTENDENT'S REPORT

This report card is being provided as required by the Education Accountability Act of 1998. I sincerely hope that the information will be helpful to you as a citizen and a parent in School District Six.

School District Six is fortunate in many respects. The tax base has continued to grow along with the student population which was 8,918 in 2001. The building program has been very aggressive over the past fifteen years, and therefore the district has been able to offer an excellent learning environment for all students. The community is extremely proud of all facilities, and the new Dorman site which will open in the fall of 2002 will be no exception. It will provide a focal point among district facilities that is without equal.

The technology program continues to grow with the knowledge that computer skills have become basic. A computer lease program allows the district to provide excellent technology resources in a time of very rapid change. The training of personnel will continue to be a challenge with staff having many different levels of training and understanding. The present ratio of one computer for every 3.4 students is excellent. Our district technology plan provides for the addition of new technology as it becomes available to enhance educational opportunities for students.

Dorman High School is fortunate to have SAT results that are at or above the national average in math and verbal. The results on the SAT speak volumes for the academic program from elementary through high school. Motivated students have access to quality programs that result in opportunities at some of the best colleges and universities in the country.

It is very important to note that the purpose of this report is the Palmetto Achievement Challenge Test (PACT). Schools and school districts must report results and progress on the test. District Six is committed to continuous improvement in academics to include PACT results. The district improved over the baseline year and will continue to refine standards such that results will show a positive trend.

The hard work of students, teachers, and parents will always be necessary if students are to have access to the very best academic programs available. I am very appreciative of all teachers and administrators who provide that access. Dr. David L. Eubanks, Superintendent

### South Carolina Performance Goal:

By 2010, South Carolina's student achievement will be ranked in the top half of the states nationally. To achieve this goal, we must become one of the five fastest improving systems in the country.
